PRESS RELEASE
YEAR XXV - n. 17
23rd November 2009

TODAY 23.11.2009 XVI ANNIVERSARY OF THE MURDER-EXPLANT OF PAOLO MONDO AT TRIESTE (Italy)

Today I would be 35 years old

I want you to remember me. I will be your conscience. I stand for all the young people who have had their organs explanted and who didn't have the fortune to have strong and honest parents like mine who were able to report the deception.

I don't want you to forget that our society, all of our society, is responsible for having 'slaughtered' me. A society which keeps silent is just as responsible as the explanters themselves.

This society has reduced us to meat and blood, it has classified us according to disease, made us into slaves without personality, without pride, without rights, interchangeable and subordinate to the research and the welfare of the lobbies.

The "Pensée unique - single thought" is imposed on us from an early age in schools and by the regime press which are the forces behind this system of profit and abuse. This system aims for auto destruction which it calls "organ and blood donation" and those who are in opposition are subjected to impositions and deceit.

The already theoretical concept that "Man was made in the image of God" is now even more dated, we are now made in the image of experimental guinea pigs.

For Paolo
Silvana Mondo - Paolo's mother
