PRESS RELEASE  
YEAR XXIV - n. 10  
21 May 2008

## FREE ON-LINE DOCUMENT FOR HAND-WRITTEN STATEMENT AGAINST EXPLANT OF ORGANS OF NON-DONORS

**The government ostracizes, persecutes and discriminates against Non-donors  
The 'Lega Nazionale Contro la Predazione' defends their rights**

Italian national television, the press and official and secret health authorities were omnipresent in the organ donation day (week) organized by the government which funded the transplant associations and their so called volunteers: often transplant patients, those on the waiting lists and their families who deceive the 'healthy' in order to coerce them to become organ donors (after a false declaration of brain death in intensive care). The 'Lega Nazionale Contro la Predazione di Organi e la Morte a Cuore Battente' denounces the abundance of misinformation given by the Health Minister and the National Transplant Centre (CNT) and its regional offices, and acts in the defence of the public against the way the officials and the politicians controlled by the lobbies are throwing their weight about.

There is evident discrimination against Non-donors (in contrast to art. 3 of the Italian Constitution) whose rights are denied due to the non-issue of the enforcement decree of article 5 of Law n° 91 - 1<sup>st</sup> April 1999.

Today Non-donors risk being explanted due to the illegal liberalization of the various types of donor cards, which anyone in a hospital can forge and put in a patient's pocket. This would then result in the loss of the family's right to opposition (art. 23 of law).

The 91/99 law does not recognize the right of either the Health Minister or the Director of the National Transplant Centre to modify the precise regulations of explant/transplant law which, moral judgement aside, are definite and binding. Therefore Rosy Bindi's "temporary decree of 8 April 2000" is not legal, and Livia Turco's "decree of 11 March 2008" which integrates the "temporary decree" (to illegally register one's will at the registry office) is doubly illegal. At the same time Nanni Costa, the director of the National Transplant Centre (CNT) has publicly repeated that the "temporary decree" equates to the "Enforcement decree" foreseen by law which is proof of their systematic deceit.

For these reasons, until the enforcement decree concerning the statement of will is issued (art. 5), la Lega Nazionale Contro la Predazione di Organi e la Morte a Cuore Battente, thanks to the persistence and support of its members, is taking the place of the government and is **supplying on-line free document against explants**. All you need to do is to send a fax or an e-mail to the Lega Nazionale with your name, surname, postal address and identity card number and you will receive by e-mail the document dated and made out to you which should then be filled in and signed as provided for by law. Further information can be found on [www.antipredazione.org](http://www.antipredazione.org) .
